COUCH TO HALF MARATHON

15 WEEK TRAINING PLAN

	MONDAY	TUESDAY	WEDNESDAY	THURSDAY	FRIDAY	SATURDAY	SUNDAY
1	Rest Day	10 x 2 min walk 1 min run	Rest Day	10 x 2 min walk 1 min run	Strength Training	Rest Day	Long Run 1.5 Miles
2	Rest Day	15 x 1 min walk 1 min run	Rest Day	15 x 1 min walk 1 min run	Strength Training	15 x 1 min walk 1 min run	Long Run 2 Miles
3	Rest Day	15 x 0.5 min walk 1.5 min run	Rest Day	15 x 0.5 min walk 1.5 min run	Strength Training	15 x 0.5 min walk 1.5 min run	Long Run 2.5 Miles
4	Rest Day	10 x 1 min walk 2 min run	Rest Day	10 x 1 min walk 2 min run	Strength Training	Rest Day	5k
5	Rest Day	Training Run 2.5 miles	Training Run 1.5 miles	Rest Day	Training Run 2.5 miles	Strength Training	Long Run 4 Miles
6	Rest Day	Training Run 2.5 miles	Training Run 1.5 miles	Rest Day	Training Run 2.5 miles	Strength Training	Long Run 4.5 Miles
7	Rest Day	Training Run 3 miles	Training Run 4 miles	Rest Day	Training Run 3 miles	Strength Training	Long Run 5 Miles
8	Rest Day	Training Run 3 miles	Training Run 4 miles	Rest Day	Training Run 3 miles	Strength Training	10k
9	Rest Day	Training Run 3 miles	Training Run 4 miles	Rest Day	Training Run 3 miles	Strength Training	Long Run 5 Miles
10	Rest Day	Training Run 3 miles	Training Run 4 miles	Rest Day	Training Run 3 miles	Strength Training	Long Run 7 Miles
11	Rest Day	Training Run 4 miles	Training Run 5 miles	Rest Day	Training Run 4 miles	Strength Training	Long Run 9 Miles
12	Rest Day	Training Run 4 miles	Training Run 5 miles	Rest Day	Training Run 4 miles	Strength Training	Long Run 6 Miles
13	Rest Day	Training Run 4 miles	Training Run 5 miles	Rest Day	Training Run 4 miles	Strength Training	Long Run 11 Miles
14	Rest Day	Training Run 4 miles	Training Run 6 miles	Rest Day	Training Run 4 miles	Strength Training	Long Run 9 Miles
15	Rest Day	Training Run 3 miles	Rest Day	Easy Run 3 miles	Rest Day	Easy Run 2 miles	Half Marathon 13.1 Miles

Training Runs should be done at a comfortable, sustainable pace:

3-4 out of 10 in terms of Rate of Perceived Exertion (RPE).

Long Runs should be done at an easy and conversational pace: 2-3 out of 10 RPE. Try to run the whole way!

Strength Training: we recommend compound exercises using weights, like deadlifts, squats, lunges.

MARATHON HANDBOOK

14 week half marathon training plan is an essential guide for runners aiming to complete a half marathon successfully. Whether you are a novice runner or an experienced athlete looking to improve your performance, having a structured training plan is crucial for building endurance, strength, and mental resilience. This article will provide you with a comprehensive overview of a 14-week training plan, offering tips, insights, and considerations to help you reach your race-day goals.

Understanding the Half Marathon

A half marathon is a distance of 13.1 miles (21.1 kilometers), which can be both a challenging and exhilarating experience. Training for this distance requires a strategic approach, focusing on gradual progression and recovery.

Why a 14-Week Training Plan?

A 14-week training plan gives runners ample time to prepare without risking injury. It allows for a gradual increase in mileage and intensity, ensuring that the body adapts effectively. Here are some key benefits of a 14-week training plan:

- Adequate Preparation Time: 14 weeks provides enough time to build a solid base.
- Flexibility: It accommodates varying fitness levels and allows for adjustments based on progress.
- Structured Progression: The plan typically includes a mix of long runs, speed work, and recovery days, which are vital for improvement.

Components of a 14-Week Training Plan

A well-rounded training plan will include several critical components:

Base Mileage

Base mileage is the foundation of your training. It refers to the amount of running you do each week. Ideally, you should start with a weekly mileage that feels comfortable but challenges you slightly. As the weeks progress, this mileage will gradually increase.

Long Runs

Long runs are essential for building endurance. They help your body adapt to running for extended periods, which is crucial for race day. Here's how to incorporate long runs into your training plan:

- Begin with a distance you can comfortably run (e.g., 5-6 miles).
- Increase your long run by approximately 1 mile each week.
- Include a "cutback" week every three weeks, reducing your long run distance to allow for recovery.

Speed Work

Speed work enhances your running efficiency and stamina. Incorporating intervals, tempo runs, and hill workouts can significantly improve your race time. Here are some examples of speed workouts:

- Intervals: Short bursts of high-intensity running followed by rest (e.g., 400m repeats).
- Tempo Runs: Sustained efforts at a challenging pace (e.g., running at a pace you could maintain for an hour).
- Hill Repeats: Running up a hill at a hard effort and jogging or walking down to recover.

Recovery Days

Recovery is just as important as training. It allows your body to repair and strengthen. Schedule at least one full rest day each week and consider including easy-paced runs or cross-training activities (such as cycling or swimming) to promote recovery.

Sample 14-Week Half Marathon Training Plan

Here's a sample training plan that you can customize based on your current fitness level:

1. Weeks 1-4: Building Base

- Monday: Rest
- Tuesday: 3 miles easy
- Wednesday: 4 miles easy
- Thursday: Cross-training (30-45 min)
- Friday: 3 miles easy
- Saturday: Long run (start at 5 miles, increase to 8 miles by week 4)
- Sunday: Rest or light cross-training

2. Weeks 5-8: Increasing Intensity

- Monday: Rest
- Tuesday: 4 miles with intervals (e.g., 4x400m)

- Wednesday: 5 miles easy
- Thursday: Cross-training (45 min)
- Friday: 4 miles tempo run
- Saturday: Long run (increase to 10 miles by week 8)
- Sunday: Rest or light cross-training

3. Weeks 9-12: Peak Training

- Monday: Rest
- Tuesday: 5 miles with hill repeats
- Wednesday: 6 miles easy
- Thursday: Cross-training (45 min)
- Friday: 5 miles tempo run
- Saturday: Long run (increase to 12 miles by week 12)
- Sunday: Rest or light cross-training

4. Weeks 13-14: Tapering

- Monday: Rest
- Tuesday: 4 miles easy
- Wednesday: 3 miles with strides
- Thursday: Cross-training (30 min)
- Friday: 2 miles easy
- Saturday: Race day or final long run (8 miles if not racing)
- Sunday: Rest

Tips for Successful Training

To make the most of your 14-week half marathon training plan, consider the following tips:

Listen to Your Body

Pay attention to how your body responds to the training. If you experience pain or excessive fatigue, take a step back and allow for recovery.

Nutrition and Hydration

Proper nutrition fuels your training. Focus on a balanced diet rich in carbohydrates, proteins, and healthy fats. Stay hydrated, especially during long runs.

Gear Up

Invest in a good pair of running shoes and comfortable clothing. Proper gear can prevent injuries and enhance your performance.

Stay Motivated

Join a running group or find a training partner to stay motivated. Sharing your journey with others can make the training process more enjoyable.

Conclusion

Completing a half marathon is a significant achievement that requires dedication and proper training. A well-structured **14 week half marathon training plan** can prepare you physically and mentally for race day. By following the outlined components, sticking to your plan, and listening to your body, you will be well-equipped to tackle the 13.1-mile challenge with confidence. Remember to celebrate your progress along the way, and most importantly, have fun during your training journey! Happy running!

Frequently Asked Questions

What is a 14 week half marathon training plan?

A 14 week half marathon training plan is a structured schedule designed to prepare runners for a half marathon (13.1 miles) over a period of 14 weeks, incorporating various types of runs, rest days, and cross-training.

Who is a 14 week half marathon training plan suitable for?

This plan is suitable for runners with a basic level of fitness who can comfortably run at least 3 miles. It's ideal for beginners looking to complete their first half marathon or for intermediate runners aiming to improve their performance.

What types of workouts are included in a 14 week half marathon training plan?

A typical plan includes long runs, easy runs, tempo runs, interval training, and rest days, along with cross-training activities such as cycling or swimming to enhance overall fitness.

How should I adjust my training if I miss a week in the 14 week half marathon training plan?

If you miss a week, assess your fitness level and consider repeating the previous week's workouts before progressing. Focus on maintaining consistency and avoid overexerting yourself to catch up.

What is the importance of rest days in a 14 week half marathon training plan?

Rest days are crucial for recovery, allowing muscles to repair and reducing the risk of injury. They help improve overall performance by ensuring your body is well-rested for upcoming workouts.

How can I stay motivated throughout the 14 week half marathon training plan?

Set specific goals, track your progress, join a running group, vary your routes, and reward yourself for milestones achieved to maintain motivation throughout your training.

What should I eat during a 14 week half marathon training plan?

Focus on a balanced diet rich in carbohydrates for energy, lean proteins for muscle repair, healthy fats, and plenty of fruits and vegetables. Hydration is also key, so drink plenty of water.

How can I prevent injuries while following a 14 week

half marathon training plan?

To prevent injuries, listen to your body, incorporate rest days, gradually increase your mileage, wear proper footwear, and include strength training and flexibility exercises in your routine.
