- Daily Challenges: Setting daily or weekly challenges to create specific projects or edits can keep skills sharp.
- Recreating Designs: Trying to replicate existing artwork or designs can enhance understanding of tools and techniques.
- Experimentation: Don't hesitate to explore different features without a specific goal. This can lead to discovering new skills and techniques.

### Taking the Practice Test

When it comes time to take the practice test, consider the following tips:

1. Simulate Test Conditions: Take the test in a quiet environment, free from distractions, to mimic the conditions of a real exam.
2. Time Management: Keep track of time and ensure you allocate enough time to answer all questions thoughtfully.
