- Scoop: A rice paddle to help serve without damaging the inner pot.
- Power Cord: Connects the cooker to a power source.

## **Operating Instructions for the Ambiano Rice Cooker**

Using the Ambiano rice cooker is straightforward. Follow these steps to get started:

### **Step 1: Measure the Rice**

1. Use the provided measuring cup to measure the amount of rice you wish to cook. The cooker can handle up to 6 cups of uncooked rice, which will yield about 12 cups of cooked rice.
2. Rinse the rice thoroughly under cold water to remove excess starch. This step is crucial for achieving fluffy rice.

### **Step 2: Add Water**

1. After rinsing, place the rice in the inner pot.
2. For white rice, the general rule is to use a 1:1.5 ratio of rice to water. For 1 cup of rice, add 1.5 cups of water.
3. For brown rice, the ratio is usually 1:2. So, if you are cooking 1 cup of brown rice, add 2 cups of water.

### **Step 3: Seasoning (Optional)**

- You may add a pinch of salt or a splash of oil for flavor, but this step is entirely optional.
- If you want to enhance the taste, consider adding broth instead of water.

### **Step 4: Start Cooking**

1. Place the inner pot back into the rice cooker.
2. Close the lid securely.
3. Plug in the power cord and turn the cooker on. The rice cooker will automatically switch to cooking mode.
4. Wait for the cooker to signal that the rice is ready. This usually takes about 20-30 minutes for white rice and longer for brown rice.

## Step 5: Fluff and Serve

1. Once the cooking cycle is complete, the cooker will automatically switch to the "keep warm" setting.
2. Allow the rice to sit for about 5-10 minutes. This resting period helps to absorb any remaining moisture.
3. Use the rice paddle to fluff the rice gently before serving.

## Cooking Different Types of Rice

The Ambiano rice cooker is versatile and can cook various types of rice. Here's how to adjust your cooking based on the type of rice you are using:
