

Bible Warns About Science

Bible warns about science may seem like a controversial statement to some, especially in today's world where science and technology are often hailed as the ultimate paths to understanding and improving the human condition. However, a deeper examination of biblical texts reveals that the Bible contains multiple warnings about the pursuit of knowledge, particularly when it contradicts faith or leads individuals away from spiritual truths. This article explores the relationship between the Bible and science, examining scriptural passages, theological interpretations, and the implications of these warnings for believers today.

The Biblical Perspective on Knowledge and Wisdom

The Bible presents a nuanced perspective on knowledge and wisdom. While it does not outright condemn the pursuit of knowledge, it emphasizes that true wisdom comes from God and that human understanding is limited.
