3. Water: Required as per the cake mix's directions.
4. Vegetable Oil: Typically around 1/2 cup.

Frosting Ingredients

1. Buttercream Frosting: You can either make your own or use store-bought.
2. Food Coloring: Pink, purple, and blue food coloring to create a magical effect.
3. Decorative Sprinkles: Edible glitter, star-shaped sprinkles, or sugar pearls.

Decoration Supplies

1. Ice Cream Cones: For the castle turrets.
2. Candy: Such as gummy candies, chocolate bars, or fruit roll-ups to add extra flair.
3. Princess Figurines: Small plastic or edible princess figures to top the cake.

Step-by-Step Instructions for Baking and Decorating

Creating the Betty Crocker Princess Castle Cake involves several key steps: baking the cake, preparing the frosting, and decorating the cake. Below is a detailed guide to help you through the process.

Step 1: Baking the Cake

1. Prepare the Cake Mix: Follow the instructions on the cake mix box. In general, combine the cake mix, eggs, water, and oil in a large mixing bowl. Beat the mixture until smooth.
2. Choose Your Cake Pans: You will need two round cake pans for the base of the castle. For the turrets, you can use a smaller, round cake pan or bake additional layers if you prefer.
3. Bake the Cake: Pour the batter into the prepared pans and bake according to the package instructions. Typically, this will be around 25-30 minutes at 350°F (175°C).
4. Cool the Cakes: Once baked, allow the cakes to cool in the pans for about 10 minutes before transferring them to a wire rack to cool completely.

Step 2: Preparing the Frosting

1. Make or Open the Frosting: If you are making your own buttercream frosting, beat together butter, powdered sugar, milk, and vanilla extract until fluffy. Divide the frosting

into separate bowls.

2. Color the Frosting: Use food coloring to create different shades for decorating your cake. For example, you can have pink for the main frosting and purple or blue for accents.

Step 3: Assembling the Cake

1. Layer the Cakes: Once cool, place one round cake on a serving plate. Spread a layer of frosting on top and place the second round cake on top.

2. Frost the Entire Cake: Use the colored frosting to cover the entire cake, smoothing it out as you go. Make sure to create a nice, even layer.

3. Create the Castle Turrets: Take the ice cream cones and frost them with the remaining frosting. Place them upside down on top of the cake to resemble castle turrets.

Step 4: Decorating the Cake

1. Add Decorative Elements: Use sprinkles, edible glitter, and candy to decorate the base of the cake and the turrets. You can also use fruit roll-ups to create flags on top of the turrets.

2. Position the Princess Figurines: Place small princess figures around the cake or on top of the turrets to add to the fairytale theme.

3. Final Touches: Ensure everything is securely in place and add any additional decorations you desire to make the cake truly unique.
