## CONSTITUTIONAL CONVENTION VOCABULARY

Nine	Philadelphia	Father of the Constitution
Slave trade	two	Three-Fifths Compromise
Senate	judicial	Great Compromise
Texas	House	Constitutional Convention
Virginia Plan	House of Representatives	James Madison

When 55 delegates from 12 states met in Philadelphia, (1) in May 1787, they intended to make changes in the Articles of Confederation. However, James Madison, (2), nicknamed the Father of the Constitution, (3) convinced them that they needed a new plan of government. The meeting in Philadelphia that gave birth to the present US Constitution is now known as the Constitutional Convention, (4).

James Madison proposed a strong national government of three branches – the legislative, executive and Judicial, (5). Large and small states objected to the way the legislative branch would be organized under Madison's Virginia Plan, (6) because the small states believed it was unfair. After much heated debate, the convention agreed to have two houses in the legislative branch. Each state would have two, (7) members in the upper house, called the Senate, (8). Members of the lower house, called the House of Representatives, (9) were to be based on the state's population.

The South wanted slaves to be counted for representation in the House of Representatives, but did not want them counted for purposes of Taxes, (10).

The North did not want slaves to be counted for representation in the House, (11), but did want them counted for taxation purposes. The debate was solved by the Three-Fifths Compromise, (12). Another compromise concerning slaves, was that Congress would not outlaw the slave trade, (13) for another 20 years.

When the delegates signed the new constitution, it was submitted to the states for ratification. Three-fourths, or nine, (14) of the thirteen states were needed for ratification (approval).

Constitutional convention vocabulary answer key is an essential resource for understanding the complex terminology used during the formation of the United States Constitution. The Constitutional Convention of 1787 was a pivotal event that led to the creation of the nation's foundational legal document, and grasping the vocabulary associated with it is crucial for students, educators, and anyone interested in American history. This article will explore key terms related to the Constitutional Convention, providing definitions and contexts to enhance comprehension.

## Understanding the Constitutional Convention

The Constitutional Convention was convened in Philadelphia from May to September 1787. Delegates from twelve of the thirteen states (Rhode Island did not participate) gathered to address the inadequacies of the Articles of Confederation and to draft a new constitution that would better serve the needs of the fledgling nation.

## Key Terminology from the Constitutional Convention

Below is a glossary of important terms that arose during the Constitutional Convention:

1. Articles of Confederation: The first governing document of the United States, ratified in 1781. It established a weak federal government and was replaced by the Constitution due to its ineffectiveness.

2. **Delegates:** Representatives from each state who attended the Constitutional Convention. Notable delegates included George Washington, James Madison, and Benjamin Franklin.
3. **Federalism:** A system of government in which power is divided between a central authority and constituent political units (states). The Constitution established a federal system to balance power between state and national levels.
4. **Ratification:** The formal approval process of the Constitution, requiring nine out of the thirteen states to agree for it to take effect.
5. **Great Compromise:** An agreement reached during the convention that established a bicameral legislature, combining elements of the Virginia Plan and the New Jersey Plan.
6. **Bicameral:** Referring to a legislative body that has two chambers. In the case of the U.S. Congress, these chambers are the House of Representatives and the Senate.
7. **Virginia Plan:** A proposal for a new constitution that called for a strong national government with a bicameral legislature, representation based on state population.
8. **New Jersey Plan:** A proposal that called for a unicameral legislature with equal representation for each state, regardless of size or population.
9. **Three-Fifths Compromise:** A compromise reached that determined how slaves would be counted for taxation and representation purposes, counting each slave as three-fifths of a person.
10. **Checks and Balances:** A system designed to prevent any one branch of government from becoming too powerful by ensuring that each branch has some measure of influence over the other branches.

## **Important Concepts and Principles**

Several concepts and principles emerged during the Constitutional Convention that continue to influence American governance today:

- **Separation of Powers:** The division of government responsibilities into distinct branches: legislative, executive, and judicial. This principle is designed to prevent the concentration of power and protect individual freedoms.
- **Popular Sovereignty:** The idea that the authority of government is created and sustained by the consent of its people, through their elected representatives.
- **Limited Government:** The concept that governmental powers are restricted by law, typically through a written constitution, to protect individual rights and liberties.
- **Bill of Rights:** The first ten amendments to the Constitution, ratified in 1791, that guarantee specific freedoms and rights to individuals, addressing concerns raised during the ratification debates.

## **Significant Outcomes of the Convention**

The Constitutional Convention produced several key outcomes that shaped the future of the United States:

## **Drafting the Constitution**

The delegates ultimately drafted the Constitution, which serves as the supreme law of the land. The Constitution outlines the structure of the federal government, delineates the powers of each branch, and establishes the rights of citizens.

## **Establishment of the Legislative Branch**

The Great Compromise led to the establishment of a bicameral Congress, which consists of:

- House of Representatives: Members are elected based on the population of each state, serving two-year terms.
- Senate: Each state is represented by two senators, serving six-year terms, ensuring equal representation for all states regardless of size.

## **Compromises Reached**

Several significant compromises were crucial to securing the agreement of all states:

1. The Great Compromise: Balanced the needs of large and small states regarding representation.
2. Three-Fifths Compromise: Addressed the contentious issue of how slaves would be counted in determining representation and taxation.
3. Commerce and Slave Trade Compromise: Congress was forbidden to regulate the slave trade for twenty years, appeasing southern states.

## **The Ratification Process**

Following the completion of the Constitution, the next challenge was its ratification. The process involved several key steps:

## **Federalists vs. Anti-Federalists**

- Federalists: Supporters of the Constitution who believed in a strong national government. Prominent Federalists included Alexander Hamilton, James Madison, and John Jay, who wrote the Federalist Papers to promote ratification.
- Anti-Federalists: Opponents of the Constitution who feared that a strong national government would threaten individual liberties and state sovereignty. They advocated for the inclusion of a Bill of Rights.

## **The Role of the Federalist Papers**

The Federalist Papers were a series of 85 articles and essays written to encourage ratification of the Constitution. They provided insights into the

framers' intentions and offered arguments in favor of the new government structure.

## **State Ratification Conventions**

Each state held conventions to debate and vote on the Constitution. Ratification required the agreement of nine states, which was eventually achieved with the ratification of New Hampshire on June 21, 1788.
