What is a Complete Subject?

The complete subject of a sentence includes all the words that tell who or what the sentence is about.

Elements of a Complete Subject

1. Simple Subject: This is the main noun or pronoun that the sentence is about.
2. Modifiers: These are adjectives, articles, or phrases that give additional information about the simple subject.

For example, in the sentence "The quick brown fox jumps over the lazy dog," the complete subject is "The quick brown fox," where "fox" is the simple subject, and "the quick brown" are the modifiers.

What is a Complete Predicate?

The complete predicate of a sentence consists of the verb and all the words that tell what the subject

does or is. It provides essential information about the action or state of being of the subject.

Elements of a Complete Predicate

1. Main Verb: This is the action word or linking verb in the sentence.
2. Modifiers and Complements: These include adverbs, phrases, and clauses that provide additional information about the action or state of being.

For example, in the sentence "The quick brown fox jumps over the lazy dog," the complete predicate is "jumps over the lazy dog," where "jumps" is the main verb, and "over the lazy dog" is the additional information describing the action.
