Understanding the Basics of Hangman

Hangman is a classic word-guessing game that involves players attempting to guess a hidden word by suggesting letters within a certain number of attempts. The game typically consists of a player (the guesser) and another player (the host) who knows the word.

Rules of Hangman

The basic rules of Hangman are straightforward:

1. Choosing a Word: The host selects a word or phrase and writes down a series of dashes representing each letter in the word. For example, the word "APPLE" would be represented as "_ _ _ _ _".

2. Guessing Letters: The guesser suggests letters one at a time. If the guessed letter is in the word, the host fills in the corresponding dashes with the correct letter.

3. Incorrect Guesses: If the guessed letter is not in the word, a part of the

hangman (usually a stick figure) is drawn. The standard drawing consists of six parts: head, body, left arm, right arm, left leg, and right leg.

4. Winning and Losing: The guesser wins if they can identify the word before the hangman is fully drawn. Conversely, they lose if the hangman is completed before they guess the word.
