4. Dinner: Grilled or baked protein with steamed vegetables and a small serving of whole grains.
5. Dessert: If desired, a small portion of fruit or a healthy treat made from natural ingredients.

Exercise and Mindfulness Practices

In addition to dietary changes, exercise and mindfulness are integral parts of the Dr. Oz 10 Day Detox Diet.

Exercise Recommendations

Regular physical activity can enhance the detox process and improve overall well-being. Dr. Oz recommends:

- Cardiovascular Workouts: Aim for at least 30 minutes of moderate aerobic exercise five days a week. This can include walking, cycling, or swimming.
- Strength Training: Incorporate strength training exercises two to three times a week to build muscle and increase metabolism.
- Flexibility and Balance: Activities like yoga or Pilates can improve flexibility, reduce stress, and promote mindfulness.

Mindfulness Practices

Mindfulness is a crucial aspect of the detox process, helping participants develop a healthier relationship with food and their bodies. Suggested practices include:

- Meditation: Spend a few minutes each day in quiet reflection or guided meditation to reduce stress and enhance awareness.
