# Ingredients

To create a mouthwatering egg nog custard pie, you will need the following ingredients:

## For the Pie Crust

1. 1 ½ cups all-purpose flour
2. ½ teaspoon salt
3. ½ cup unsalted butter, cold and cubed
4. 3 tablespoons granulated sugar
5. 4-5 tablespoons ice water

## For the Custard Filling

1. 2 cups egg nog
2. 4 large eggs
3. ½ cup granulated sugar
4. ½ teaspoon ground nutmeg
5. ½ teaspoon ground cinnamon
6. 1 teaspoon vanilla extract
7. ¼ teaspoon salt

## For Garnish (Optional)

1. Whipped cream
2. Additional ground nutmeg or cinnamon
3. Shaved chocolate or chocolate curls

## Preparation Steps

Creating your egg nog custard pie involves two main components: making the pie crust and preparing the custard filling. Let's break it down step by step.

### Making the Pie Crust

1. Combine the Dry Ingredients: In a large mixing bowl, whisk together the flour, sugar, and salt until well mixed.
2. Cut in the Butter: Add the cold, cubed butter to the flour mixture. Using a pastry cutter or your fingers, cut the butter into the flour until the mixture resembles coarse crumbs.

3. **Add Ice Water:** Gradually add the ice water, one tablespoon at a time, mixing gently until the dough comes together. You may not need all the water, so be cautious.
4. **Chill the Dough:** Form the dough into a disk, wrap it in plastic wrap, and refrigerate for at least 30 minutes. This helps the butter solidify and makes the dough more manageable.
5. **Roll Out the Dough:** Once chilled, place the dough on a lightly floured surface. Roll it out into a circle about 12 inches in diameter.
6. **Fit the Dough into the Pan:** Carefully transfer the rolled dough into a 9-inch pie dish. Trim any excess dough hanging over the edges and crimp the edges for a decorative finish.
7. **Pre-bake the Crust:** Preheat your oven to 375°F (190°C). Line the crust with parchment paper and fill it with pie weights or dried beans. Bake for 15 minutes, then remove the weights and parchment and bake for an additional 10 minutes or until lightly golden. Allow to cool.

## **Preparing the Custard Filling**

1. **Whisk the Eggs:** In a large mixing bowl, whisk together the eggs and granulated sugar until smooth and light in color.
2. **Incorporate Egg Nog:** Gradually add the egg nog to the egg mixture, whisking continuously to combine.
3. **Add Spices and Flavoring:** Stir in the ground nutmeg, ground cinnamon, vanilla extract, and salt. Mix until everything is well combined.
4. **Strain (Optional):** For an ultra-smooth custard, you can strain the mixture through a fine-mesh sieve to remove any lumps or bits of cooked egg.
5. **Pour into the Crust:** Pour the custard filling into the pre-baked pie crust, filling it just to the top.

## **Baking the Pie**

1. **Bake:** Place the pie in the preheated oven (still at 375°F or 190°C) and bake for 35-45 minutes. The pie is done when the custard is set but still slightly jiggly in the center.
2. **Cool Down:** Once baked, remove the pie from the oven and allow it to cool at room temperature. The custard will continue to set as it cools.
3. **Chill:** For the best taste and texture, refrigerate the pie for at least 2 hours or overnight.
