<Typing Template for GCU Papers for Lower Division Courses>

Formatting: This is an electronic template for papers written in GCU style. The purpose of the template is to help you follow the basic writing expectations for beginning your coursework at GCU. Margins are set at 1 inch for top, bottom, left, and right. The first line of each paragraph is indented a half inch (0.5"). The line spacing is double throughout the paper, even on the reference page. The font style used in this template is Times New Roman. The font size is 12. When you are ready to write, and after having read these instructions completely, you can delete these directions and start typing. The paragraph formatting should stay the same. If you have any questions, please consult with your instructor.

Citations: Citations are used to reference material from another source. When paraphrasing material from another source (such as a books, journals, website articles, etc.), include the author's last name and the publication year in parentheses. When directly quoting material word-for-word from another source, use quotation marks and include the page number after the author's last name and year.

Using citations to give credit to others whose ideas or words you have used is an essential requirement to avoid issues of plagiarism. Just as you would never steal someone else's car, you should not steal their words either. To avoid potential problems, always be sure to cite your sources by referring to the author's last name and the year of publication in parentheses at the end

GCU APA Style Guide is an essential resource for students and researchers at Grand Canyon University who are required to write academic papers adhering to the American Psychological Association (APA) formatting and citation guidelines. The GCU APA Style Guide not only provides detailed instructions on how to format papers but also offers valuable insights on citing sources correctly and avoiding common pitfalls in academic writing. Understanding and applying these guidelines is crucial for achieving academic success and ensuring that your work meets the standards expected by instructors and the academic community.

Understanding APA Style

APA Style is a widely accepted format for writing and formatting academic papers in the

social sciences, including psychology, education, and other related fields. The style emphasizes the importance of clarity, precision, and conciseness in writing. It also provides a structured approach to citing sources, which is pivotal for maintaining academic integrity.

Key Components of APA Style

When adhering to APA Style, several key components should be considered:

- **Title Page:** This page includes the title of the paper, the author's name, and the institutional affiliation. In GCU's case, this typically includes the Grand Canyon University name.
- **Abstract:** A brief summary of the research or paper, usually no more than 250 words. This section gives readers a quick overview of the content and findings.
- **Main Body:** The core of the paper, where the introduction, methods, results, and discussion sections are included.
- **References:** A comprehensive list of all sources cited in the paper, formatted according to APA guidelines.

Formatting Your Paper

Proper formatting is crucial in APA Style. Here are the essential formatting guidelines required by the GCU APA Style Guide:

General Formatting Guidelines

1. Font: Use a standard, readable font such as 12-point Times New Roman or 11-point Arial.
2. Margins: Set 1-inch margins on all sides of the paper.
3. Line Spacing: Use double-spacing throughout the entire document, including the reference page.
4. Paragraph Indentation: Indent the first line of each paragraph by 0.5 inches.
5. Page Numbers: Include page numbers in the upper right corner of each page, starting from the title page.

Title Page Format

The title page is the first impression of your paper. According to the GCU APA Style Guide, the title page should include:

- The title of the paper, centered and bolded.
- Your name, centered and below the title.
- Your institutional affiliation, centered under your name.
- A course number and name (if applicable), centered below the institutional affiliation.
- The instructor's name, centered below the course information.
- The due date, centered at the bottom of the page.

Citing Sources in APA Style

Citing sources correctly is fundamental to academic writing. The GCU APA Style Guide breaks down the citation process into in-text citations and a reference list.

In-Text Citations

In-text citations are used to give credit to authors whose work you reference in your paper. The GCU APA Style Guide specifies the following formats:

- For direct quotes: Include the author's last name, year of publication, and page number. Example: (Smith, 2020, p. 15).
- For paraphrasing: Include the author's last name and year of publication. Example: (Smith, 2020).

Reference List

The reference list is a comprehensive list of all sources cited in your paper. According to the GCU APA Style Guide, follow these key points:

- The title "References" should be centered at the top of the page.
- Entries should be listed in alphabetical order by the last name of the first author.
- Use a hanging indent format for each reference, meaning the first line is flush left, and subsequent lines are indented by 0.5 inches.

Common Types of Sources and Their Formats

Below are common sources you may cite, along with their corresponding formats as indicated by the GCU APA Style Guide:

Books

Format:

- Last, F. M. (Year Published). Book Title. Publisher.

Example:

- Smith, J. A. (2020). Understanding Psychology. Psychology Press.

Journal Articles

Format:

- Last, F. M. (Year Published). Title of article. Title of Journal, Volume(Issue), Page range.
<https://doi.org/xx.xxx/yyyy>

Example:

- Doe, J. (2021). The effects of sleep on learning. *Journal of Educational Psychology*, 113(4), 567-578. <https://doi.org/10.1234/jeps.5678>

Websites

Format:

- Author, A. A. (Year, Month Date). Title of web page. Website name. URL

Example:

- Johnson, R. (2022, March 5). The impact of social media on youth. *Youth Studies Journal*. <http://www.youthstudiesjournal.com/socialmedia>

Avoiding Common Pitfalls

Even seasoned writers can make mistakes when it comes to APA Style. Here are some common pitfalls to avoid, as highlighted in the GCU APA Style Guide:

- **Plagiarism:** Always give credit to original authors to avoid academic misconduct.
- **Incorrect Formatting:** Double-check your formatting against the GCU APA Style Guide to ensure compliance.
- **Inconsistent Citations:** Make sure that all in-text citations match the corresponding reference list entries.
- **Neglecting the Abstract:** If required, do not overlook the importance of providing a concise and informative abstract.

Conclusion

Navigating the GCU APA Style Guide may seem daunting at first, but with practice and attention to detail, it becomes a straightforward process. Understanding the principles of APA Style is crucial for producing high-quality academic work. By following the formatting guidelines, correctly citing sources, and avoiding common mistakes, students can enhance their writing and maintain academic integrity. As you embark on your academic journey at Grand Canyon University, the GCU APA Style Guide will serve as an invaluable tool to help you succeed in your writing endeavors.

Frequently Asked Questions

What is the GCU APA Style Guide?

The GCU APA Style Guide is a set of formatting and citation guidelines developed by Grand Canyon University to help students and faculty properly cite sources and format their academic papers in accordance with the American Psychological Association (APA) standards.
