# How To Draw Toothless Step By Step

How to Draw Toothless Step by Step

Toothless, the beloved Night Fury dragon from the "How to Train Your Dragon" series, captivates audiences with his charming personality and sleek design. If you've ever wanted to learn how to draw Toothless, you're in the right place! This detailed guide will take you through the process step by step, making it easy for beginners and experienced artists alike to create their own version of this iconic character.

Gather Your Materials

Before diving into the drawing process, it's essential to gather all necessary materials. Here's what you'll need:

- Sketchbook or Drawing Paper: Choose a medium that you're comfortable with.
- Pencils: A range of pencils (HB, 2B, 4B) will allow you to create different shades and details.

- Eraser: A kneaded eraser works best for lightening areas without damaging the paper.
- Black Fine Liner or Marker: For inking your final drawing.
- Colored Pencils or Markers: Optional, for adding color to Toothless.
- Reference Images: Having a few images of Toothless can help guide your drawing.

Step-by-Step Drawing Process

Now that you're equipped with your materials, let's get started with how to draw Toothless step by step.

Step 1: Basic Shapes

Start by sketching the basic shapes that make up Toothless' body. Use light pencil strokes, as these will be refined later.

1. Head: Draw an oval shape for the head.
2. Body: Create a larger oval for the body, slightly tilted to give a dynamic pose.
3. Tail: Sketch a long rectangle for the tail, tapering it at the end.
4. Wings: Outline two triangular shapes on either side of the body for the wings.

Step 2: Defining the Head and Facial Features

Toothless has distinct facial features that give him his signature look.

1. Eyes: Draw two large almond-shaped eyes on the head. Add a small circle inside each for the pupils.
2. Nostrils: Sketch two small oval shapes at the end of the head for the nostrils.
3. Mouth: Draw a curved line below the nostrils for the mouth. You can give him a slight smile for a friendly expression.
4. Ears: Add two triangular shapes on the top of the head, making them slightly curved for a more natural look.

Step 3: Shaping the Body and Tail

Now, it's time to refine the shapes of the body and tail.

1. Body Contours: Smooth out the oval of the body to give it a more dragon-like appearance. Add curves to the sides to suggest muscles.

2. Tail: Refine the tail shape, making it wider at the base and tapering it towards the end. Add a small triangular fin at the end of the tail.
3. Wings: Draw the wings in greater detail. Add a curve to the top edge and draw the wing membranes, making sure they connect to the body.

Step 4: Adding Details

At this stage, it's time to add finer details to Toothless.

1. Scales: Use small, curved lines to indicate scales across the body and tail.
2. Facial Features: Add eyelashes to the eyes, and detail the mouth with a line to indicate the tongue if desired.
3. Claws: Draw small claws at the end of each foot, which can be represented by short curved lines.

Step 5: Inking the Drawing

Once you're satisfied with your pencil sketch, it's time to go over it with ink.

1. Fine Liner: Use a black fine liner to trace over your pencil lines carefully. Make sure to emphasize the outlines of the body, wings, and facial features.
2. Details: Add additional details, such as lines for the wings and texture for the scales.
3. Erase Pencil Marks: After the ink dries, gently erase the underlying pencil marks.

Step 6: Coloring Toothless

Now that you have a clean inked drawing, it's time to bring Toothless to life with color.

1. Base Color: Start by coloring the entire body in a dark black or deep navy blue. This will be the base color.
2. Shading: Use a lighter shade of blue to add highlights on the top of the head, back, and wings.
3. Eyes: Color the eyes in bright green or yellow, adding a darker shade around the pupils to make them pop.
4. Final Touches: Add finer details using a white pencil or gel pen to create highlights on the eyes and the scales.

Tips for Drawing Toothless

As you practice your drawing skills, here are some tips to improve your Toothless artwork:

- Practice Regularly: The more you draw, the better you will become. Don't hesitate to try different poses or expressions for Toothless.
- Study References: Look at various images or clips from the "How to Train Your Dragon" movies to capture accurate details and expressions.
- Experiment with Styles: You can try drawing Toothless in different styles, such as cartoonish, realistic, or even in a chibi format.
- Join Online Communities: Share your work and get feedback from other artists on platforms like DeviantArt or Instagram.

Conclusion

Drawing Toothless can be a fun and rewarding experience, allowing you to unleash your creativity and improve your artistic skills. By following this step-by-step guide, you can create your own version of this enchanting dragon. Remember, practice makes perfect, so don't get discouraged if your first attempt doesn't meet your expectations. Enjoy the process, and soon you'll be able to draw Toothless with confidence! Happy drawing!

Frequently Asked Questions

What materials do I need to draw Toothless step by step?

You will need paper, a pencil, an eraser, and optionally colored pencils or markers for coloring.

What is the first step in drawing Toothless?

Start by drawing a large oval shape for the head and a smaller oval for the body to establish proportions.

How do I sketch Toothless's facial features?

Draw two large circles for the eyes, add a small nose at the bottom of the head oval, and create a wide smile to capture Toothless's expression.

What details should I add to make Toothless look more realistic?

Add details like the ears, nostrils, and the unique pattern on the skin.

Don't forget to include the spiky ridges going down his back.

How can I make Toothless's wings look dynamic?

To draw Toothless's wings, create two large triangular shapes extending from the body, and add a few lines to indicate the wing structure and texture.

What are some tips for coloring Toothless once I'm done drawing?

Use a mix of black and dark blue for the body, lighter shades for the belly, and bright green or yellow for the eyes to bring Toothless to life.
