Understanding the International Baccalaureate Program

The International Baccalaureate program is designed to develop students' intellectual, personal, emotional, and social skills. It offers three educational programs:

The Diploma Programme is particularly well-known for its challenging curriculum and is recognized by universities worldwide. To earn an IB diploma, students must complete six subjects, a theory of knowledge course, a 4,000-word extended essay, and participate in creativity, activity, and service (CAS) projects.
