Step 1: Prepare the Cake Batter

1. Preheat your oven to 350°F (175°C).
2. In a large mixing bowl, combine the cake mix, eggs, vegetable oil, and 7Up.
3. Use an electric mixer on medium speed to blend the ingredients until the batter is smooth and well combined (about 2-3 minutes).
4. Grease and flour a 9x13-inch baking pan or line it with parchment paper for easy removal.

Step 2: Bake the Cake

1. Pour the batter into the prepared baking pan, spreading it evenly.

2. Bake in the preheated oven for 25-30 minutes, or until a toothpick inserted in the center comes out clean.
3. Once baked, allow the cake to cool in the pan for about 10 minutes before transferring it to a wire rack to cool completely.

Step 3: Prepare the Jello Glaze

1. In a medium bowl, dissolve the Jello powder in 1 cup of boiling water. Stir until completely dissolved.
2. Add 1 cup of cold water to the Jello mixture and stir.
3. Allow the Jello mixture to cool for a few minutes.

Step 4: Add the Jello to the Cake

1. Once the cake has cooled, use a fork to poke holes all over the top of the cake. This allows the Jello to seep in and flavor the cake.
2. Slowly pour the Jello mixture evenly over the cake, ensuring it fills the holes.
3. Cover the cake with plastic wrap and refrigerate for at least 2 hours, allowing the Jello to set and infuse the flavors.

Step 5: Serve and Enjoy

1. When ready to serve, you can top the cake with whipped cream and garnish it with fresh fruit or shredded coconut if desired.
2. Cut into squares and serve chilled.
