Tips for Making the Perfect Cup of Coffee

A Jura coffee machine can brew a wide variety of coffee beverages, from espresso to cappuccino. To get the best results, consider the following tips:

Brewing Tips

1. **Use Fresh Beans:** Always use freshly roasted coffee beans for the best flavor. Store them in an airtight container away from light and moisture.
2. **Grind Size Matters:** Adjust the grind size according to the type of coffee you are brewing. Finer grinds work well for espresso, while coarser grinds are better for drip coffee.
3. **Temperature Settings:** Experiment with the temperature settings to find the ideal brewing temperature for your palate.
4. **Milk Quality:** Use high-quality milk for frothing. Whole milk typically froths better than low-fat alternatives.
