Understanding Jon Rahm's Setup

The setup is crucial for any golfer, as it lays the groundwork for a successful swing. Jon Rahm's setup is characterized by several key elements:

Stance and Posture

1. **Feet Position:** Rahm typically adopts a shoulder-width stance that provides a solid base. His feet are planted firmly, allowing for stability throughout the swing.
2. **Knees:** His knees are slightly flexed, which helps in maintaining balance and allows for a more dynamic movement during the swing.
3. **Back and Spine Angle:** Rahm keeps his back straight while tilting at the hips, creating a natural spine angle that is conducive to an efficient swing.

Grip and Hand Position

1. **Grip Type:** Rahm uses a neutral grip, which means that his hands are positioned neither too far to the left nor to the right on the club. This grip promotes a natural release of the club through impact.

2. Hand Placement: His hands are positioned slightly ahead of the ball at address, which encourages a downward strike on the ball.

Alignment

1. Target Line: Rahm is meticulous about his alignment, often taking extra time to ensure that his body and club face are parallel to his target line.
2. Shoulders and Hips: His shoulders and hips are aligned with the target, reinforcing the direction of his swing.

Analyzing the Takeaway

The takeaway is the initial movement of the club away from the ball and is critical for setting up the rest of the swing. Rahm's takeaway demonstrates several important characteristics:

Club Movement

1. One-Piece Takeaway: Rahm employs a one-piece takeaway, where his arms, shoulders, and hands move the club together. This helps maintain the connection between the body and the club, promoting a more efficient swing path.
2. Club Head Position: He keeps the club head low to the ground initially, which aids in keeping the swing on plane.

Body Rotation

1. Shoulder Turn: As he takes the club back, Rahm engages his core and shoulders, turning them in unison. This rotation creates potential energy that will be released during the downswing.
2. Weight Shift: Rahm shifts his weight slightly to his right side, preparing to load up for the backswing.

The Backswing Mechanics

The backswing is where the golfer builds up power and sets the stage for a powerful downswing. Jon Rahm's backswing consists of several key elements:

Height and Length

1. Full Extension: Rahm's arms extend fully during the backswing, allowing for a wider arc. This longer arc helps generate more clubhead speed.

2. Verticality: His club tends to move upwards, creating a steep angle that is unique to his style.

Hip and Shoulder Rotation

1. Hip Turn: Rahm's hips turn significantly during the backswing, which facilitates a strong lower body movement during the downswing.
2. Shoulder Turn: He achieves a full shoulder turn, often exceeding 90 degrees, which provides additional torque.

The Downswing Dynamics

The downswing is where Jon Rahm's swing truly shines, and it is characterized by several impressive mechanics:

Transition Phase

1. Smooth Transition: Rahm's transition from the backswing to the downswing is seamless. He avoids any jerky movements or pauses, which helps maintain rhythm and tempo.
2. Weight Shift: He shifts his weight back to his left side, allowing the lower body to initiate the downswing.

Club Path and Angle of Attack

1. Inside-Out Path: Rahm typically swings on an inside-out path, which promotes a draw. This path also helps with squaring the clubface at impact.
2. Angle of Attack: His angle of attack tends to be relatively steep, especially with his driver, which contributes to higher launch angles and optimal spin rates.

The Follow-Through: Finishing Strong

The follow-through is often overlooked but is essential for a complete and effective swing. Jon Rahm's follow-through showcases several defining characteristics:

Balance and Finish

1. Balanced Finish: Rahm holds a balanced finish, typically with his weight on his front foot. This indicates good weight transfer and momentum through the shot.
2. Club Position: The club finishes high above his shoulder, which is a result of the powerful swing and good mechanics throughout the entire process.

Body Positioning

1. Head Position: Rahm's head remains steady throughout the swing and follow-through, allowing for better consistency in ball striking.
2. Hip and Shoulder Alignment: His hips and shoulders are squared towards the target, indicating a proper follow-through that aids accuracy.
