Limbus Company reroll guide is an essential resource for new players who wish to maximize their character potential and optimize their gameplay experience. Rerolling is a common practice in gacha games, where players start over to obtain better characters or items. In this guide, we will delve into the mechanics of rerolling in Limbus Company, the steps to effectively execute a reroll, and tips to enhance your chances of getting desirable characters right from the start.

Understanding Limbus Company

Limbus Company is a turn-based strategy RPG that combines elements of gacha mechanics with a rich narrative. Players manage a team of characters, each with unique abilities, to navigate various challenges and battles. The game features a diverse roster of characters, often referred to as “Egos,” each with their own strengths and weaknesses.

Given the variety of characters available, rerolling becomes a critical part of forming an effective team. Players often seek to obtain rare and powerful characters that can greatly influence their success in the game.

Why Reroll in Limbus Company?

Rerolling can provide several benefits at the beginning of your Limbus Company journey:

- **Better Characters:** Starting with rare or powerful characters can give players a significant advantage.
- **Improved Team Composition:** A well-balanced team can tackle challenges more

effectively.

- **Enhanced Early Game Progression:** Strong characters can help clear early stages more efficiently, leading to better rewards.

By rerolling, players can ensure that their initial roster aligns with their gameplay goals and preferences.

Steps to Reroll in Limbus Company

Rerolling in Limbus Company involves several steps, which can be performed relatively quickly. Here’s a step-by-step guide to help you navigate the rerolling process:

1. Create a New Account

To begin the rerolling process, you need a new account. You can either create a new game account or use a guest account for the initial playthrough. Follow these steps:

- Download Limbus Company from your preferred app store.
- Launch the game and select the option to start a new game.
- If you wish to use a guest account, make sure to select that option during the account creation process.

2. Complete the Tutorial

Once you have created your new account, complete the tutorial. The tutorial is designed to introduce players to the game's mechanics and will guide you through basic gameplay:

- Follow the on-screen prompts to engage with the game’s core systems.
- Complete any initial missions to unlock the gacha system.

This process usually takes about 10-15 minutes.

3. Access the Gacha System

After completing the tutorial, you will have access to the gacha system where you can summon new characters. Here’s how to do it:

- Navigate to the gacha section of the game.
- Use the initial currency provided by the game to make your first pulls.

Most new accounts will receive a set number of free summons that can be used to obtain characters.

4. Evaluate Your Pulls

Once you have completed your summons, evaluate the characters you have obtained. Consider the following factors:

- Rarity: Higher rarity characters typically perform better in battles.
- Abilities: Assess the skills and abilities of the characters to determine their synergy with your existing roster.
- Roles: Ensure that you have a balanced team composition, including attackers, defenders, and support characters.

If you are satisfied with your pulls, you can proceed to play the game. If not, continue with the rerolling process.

5. Rerolling Process

To reroll, you will need to delete your current account or data and start over. Here’s how to do that:

- For Mobile Devices:
- Go to your device settings and find the app management section.
- Select Limbus Company and choose the option to clear data or uninstall the app.

- For PC Users:
- If you are using an emulator, close the application and delete the saved data.
- Restart the emulator and create a new account.

After clearing your data, repeat the steps above until you are satisfied with your character pulls.

Tips for Efficient Rerolling

While the rerolling process can be straightforward, here are some tips to make it more efficient:

- **Focus on High Rarity Characters:** Aim for 5-star characters during your pulls, as they generally have the best abilities and stats.

- **Look for Synergy:** Pay attention to characters that work well together, enhancing your team’s overall performance.

- **Use Social Media Resources:** Join gaming communities on platforms like Reddit or Discord to share experiences and tips on rerolling.

- **Take Breaks:** If you find the process tedious, take breaks to avoid burnout and return with a fresh perspective.

Utilizing Codes and Events

Occasionally, Limbus Company offers promotional codes and events that provide bonus summons or currency. Keeping an eye on the official social media channels can yield additional resources that can aid in your rerolling efforts.

1. Follow Official Accounts

Make sure to follow Limbus Company’s official accounts on social media platforms. This will keep you updated on:

- Promotional events
- New character releases
- Special codes for free summons

2. Participate in Events

Engage in limited-time events that often feature exclusive characters or increased drop rates. These events can significantly enhance your rerolling experience.

Final Thoughts

In conclusion, the **Limbus Company reroll guide** is a valuable tool for any new player looking to make the most out of their initial experience. Rerolling allows you to start the game with a strong foundation, setting the stage for success in the world of Limbus Company. By following the outlined steps and tips, players can maximize their chances of obtaining powerful characters, ultimately leading to a more enjoyable and rewarding gameplay experience. Whether you are a seasoned gacha player or a newcomer to the genre, understanding the rerolling process will serve you well on your journey through Limbus Company.

Frequently Asked Questions

What is the purpose of rerolling in Limbus Company?

Rerolling in Limbus Company allows players to reset their progress in order to obtain better characters or items at the start of the game, enhancing their overall gameplay experience.

What is the recommended method for rerolling in Limbus Company?

To reroll effectively, players should create a new account, progress through the initial tutorial, and use any available currency to summon characters. If unsatisfied with the result, they can delete the account and repeat the process.

How long does the reroll process typically take in Limbus Company?

The reroll process usually takes about 15 to 30 minutes, depending on the speed of the tutorial and the number of summons the player is attempting to perform.

What are some key characters to aim for when rerolling in Limbus Company?

Players should aim for high-tier characters such as 'Lobcorp' agents or those with strong synergy and abilities that complement their team composition, as these can significantly improve performance in battles.

Are there any risks associated with rerolling in Limbus Company?

While rerolling can lead to better characters, it can also be time-consuming and may lead to players missing out on initial game content and events if they spend too long rerolling.
