

Leisure Exploration Occupational Therapy

<i>The Serious Leisure Perspectives</i>	
Serious leisure	A core activity that is highly substantial, interesting, and fulfilling. Participants find a 'career' in acquiring and expressing a combination of its special skills, knowledge, and experience
Casual leisure	Immediately, intrinsically rewarding. A relatively short-lived, pleasurable activity requiring little or no special training to enjoy it. Fundamentally hedonic - engaged in for the significant level of pure enjoyment, or pleasure
Project-based leisure	Short-term, moderately complicated, either one-shot or occasional, though infrequent, creative undertaking carried out in free time. Involves considerable planning, effort, and sometimes skill or knowledge
