

# Performance Based Interview Questions And Answers

	Stewardship Organizational	
I	Stewardship Organizational	There are times we work without close supervision or support to get the job done. Tell us about a time when you found yourself in such a situation and how things turned out.
I	Stewardship Organizational	Give an example of a time you defended your organization. How did you feel about doing it? How did you go about doing it? What was the response of the other party/parties?
I	Organizational Stewardship Organizational	Tell me about a specific time when people outside your organization were criticizing it unfairly. What did you do or say? How successful were you in changing minds or attitudes? What evidence suggests that level of success?
II	Stewardship Organizational	List two characteristics that you feel you possess that make you a sensitive, effective leader. Give a specific example for each to show how you applied them to your work setting.
II	Organizational Stewardship	Describe a time when you worked as a member of a team to accomplish a goal of your organization. What role did you play? Describe how the team worked together. What was the outcome?
II	Organizational Stewardship	Describe a time when you were working with a group and there was conflict in getting a job done. What was your role? Were the conflicts resolved? If yes, how were they resolved? If no, what were they not resolved?
II	Organizational Stewardship Organizational	Tell me about a specific time when a co-worker was experiencing significant personal problems that were affecting their work. What did you do to assist the co-worker and help them with their situation? Were your efforts successful? How did you know they were or were not successful?
III	Stewardship Organizational	Describe a time when one of your staff or your work team was working above work expectations. What was your response? How did the other party/parties respond?
III	Stewardship Organizational	Describe a time when one of your staff or your work team was working below work expectations. What was your response? How did the other party/parties respond? What was the ultimate outcome?
III	Organizational Stewardship	List three characteristics you feel you possess that make you a sensitive, effective leader. Give a specific example to illustrate the application of each to your work setting.
III	Organizational Stewardship Organizational	Tell me about a specific time when a subordinate had a personal need that conflicted with the needs of your organization. How did you address the conflicting needs? What was the result of the way you handled the situation?
IV	Stewardship Organizational	What experience have you had implementing reorganizations or change in an organization? How did you do this? What were the challenges and regrets?

Performance-based interview questions and answers are crucial tools in the hiring process, allowing employers to assess a candidate's ability to perform in the workplace based on their past experiences. These types of questions focus on specific instances where the candidate has demonstrated skills, competencies, and behaviors relevant to the job they are applying for. In today's competitive job market, understanding how to effectively prepare for and respond to these questions can significantly enhance a candidate's chances of securing their desired position.

## Understanding Performance-Based Interview Questions

Performance-based interview questions are designed to elicit detailed responses that showcase a candidate's previous performance in relevant situations. Unlike traditional interview questions that may focus on hypothetical scenarios or general qualifications, performance-based questions require candidates to provide concrete examples from their past work experiences.

## What Are Performance-Based Interview Questions?

Performance-based interview questions typically begin with phrases such as:

- "Can you describe a time when..."
- "Give me an example of..."
- "Tell me about a situation where..."

These questions require candidates to discuss specific examples that demonstrate their skills and competencies. The rationale behind this approach is that past behavior is often a good predictor of future performance. Employers look for evidence of problem-solving abilities, teamwork, leadership, and adaptability, among other traits.

## **Why Are They Important?**

Performance-based interview questions are important for several reasons:

1. **Real-life Evidence:** They provide concrete evidence of a candidate's skills and abilities rather than relying solely on theoretical knowledge or self-proclaimed strengths.
2. **Behavioral Insights:** They offer insights into how a candidate behaves in various situations, which can indicate how they might handle similar situations in the future.
3. **Cultural Fit:** They help employers determine if a candidate's values and work style align with the company culture.
4. **Skill Assessment:** They allow for a more detailed assessment of whether a candidate possesses the skills necessary for the position.

## **How to Prepare for Performance-Based Interview Questions**

Preparation is key when it comes to answering performance-based interview questions. Here are some steps candidates can take to prepare effectively:

### **1. Self-Assessment**

Before the interview, candidates should conduct a self-assessment to identify their strengths and experiences relevant to the job. Consider the following:

- What are your key achievements?
- What challenges have you overcome in your previous roles?
- What skills are most relevant to the job you are applying for?

### **2. Use the STAR Method**

The STAR method is a widely recognized technique for answering performance-based questions effectively. It stands for:

- **Situation:** Describe the context within which you performed a task or faced a challenge.
- **Task:** Explain the actual task or challenge that was involved.
- **Action:** Describe the specific actions you took to address the task or challenge.

- Result: Share the outcomes or results of your actions.

Using the STAR method helps candidates structure their responses clearly and concisely.

### **3. Practice Common Questions**

Candidates should practice answering common performance-based interview questions. Some examples include:

- "Describe a time when you had to deal with a difficult coworker."
- "Can you provide an example of a project that you led and the outcome?"
- "Tell me about a time when you made a mistake and how you handled it."

Practicing these questions can help candidates feel more confident during the interview.

## **Examples of Performance-Based Interview Questions and Answers**

Here are some examples of performance-based questions along with sample answers to illustrate how to respond using the STAR method.

### **Example 1: Handling Conflict**

Question: "Can you describe a time when you had a conflict with a coworker? How did you handle it?"

Answer:

- Situation: In my previous job as a project manager, I was working on a tight deadline with a team member who had a different approach to the project.
- Task: The conflict arose when we disagreed on how to allocate resources effectively.
- Action: I scheduled a one-on-one meeting with my coworker to discuss our perspectives. I actively listened to their concerns and shared my viewpoint. We identified common goals and agreed to compromise by reallocating some resources while keeping the project on track.
- Result: The project was completed on time, and my relationship with the coworker improved significantly. We later collaborated on other projects successfully, demonstrating the value of open communication.

### **Example 2: Meeting Deadlines**

Question: "Tell me about a time when you had to meet a tight deadline."

Answer:

- Situation: While working as a marketing coordinator, I was tasked with launching a campaign with only two weeks' notice due to a shift in company priorities.
- Task: My challenge was to coordinate with multiple departments, including design, sales, and analytics, to ensure everything was ready for the launch.
- Action: I organized a series of brief daily meetings to streamline communication and set clear priorities. I also created a timeline that outlined each department's responsibilities, ensuring everyone was on the same page.
- Result: The campaign launched successfully on time and exceeded our engagement metrics by 30%. The experience reinforced the importance of clear communication and teamwork under pressure.

## **Example 3: Leadership Skills**

Question: "Describe a situation where you took a leadership role."

Answer:

- Situation: In my last role as a team leader in the customer service department, our team faced a significant increase in inquiries during the holiday season.
- Task: I needed to ensure that our team managed the increased workload while maintaining high customer satisfaction.
- Action: I organized training sessions to enhance my team's product knowledge and developed a rotating schedule that allowed for breaks during peak hours. Additionally, I set up a feedback system to address any issues promptly.
- Result: Our response time improved by 40%, and customer satisfaction ratings increased by 25% during the holiday period. This experience helped me realize the impact of proactive leadership and team empowerment.

## **Tips for Answering Performance-Based Questions**

To effectively answer performance-based interview questions, keep these tips in mind:

- Be Specific: Use specific examples rather than general statements.
- Stay Relevant: Choose examples that are relevant to the job you are applying for.
- Be Honest: If you don't have a specific experience, it's acceptable to discuss how you would handle a situation based on your skills and knowledge.
- Practice Active Listening: Make sure to listen carefully to the question being asked, and tailor your response accordingly.

## **Conclusion**

Performance-based interview questions and answers play a pivotal role in the hiring process by providing employers with insights into a candidate's potential performance and cultural fit. By preparing effectively, utilizing the STAR method, and practicing common questions, candidates can significantly improve their chances of success in interviews. As the job market continues to evolve, mastering the art of responding to performance-based questions will remain a vital skill for job seekers across all industries.

# **Frequently Asked Questions**

## **What are performance-based interview questions?**

Performance-based interview questions are designed to assess a candidate's past behavior and performance in specific situations. They typically focus on how candidates handled challenges, solved problems, and achieved results in previous roles.

## **Why are performance-based questions important in interviews?**

They are important because they provide insight into a candidate's real-world skills, decision-making abilities, and how they might handle similar situations in the future. This can help employers predict future job performance.

## **Can you give an example of a performance-based interview question?**

Sure! An example would be: 'Can you describe a time when you had to overcome a significant challenge at work? What actions did you take, and what was the outcome?'

## **How should candidates prepare for performance-based interview questions?**

Candidates should prepare by reflecting on their past experiences, identifying key challenges they've faced, and practicing the STAR method (Situation, Task, Action, Result) to structure their answers effectively.

## **What is the STAR method in answering performance-based questions?**

The STAR method is a structured way of responding to behavioral interview questions by outlining the Situation, Task, Action, and Result. This helps candidates provide clear and concise answers that demonstrate their skills and accomplishments.

## **How can candidates demonstrate their problem-solving skills in performance-based interviews?**

Candidates can demonstrate their problem-solving skills by sharing specific examples of challenges they've encountered, detailing the steps they took to address the issue, and highlighting the positive outcomes of their actions.

## **What should candidates avoid when answering performance-based questions?**

Candidates should avoid vague responses, speaking negatively about past employers, or failing to provide concrete examples. It's important to stay focused on their own contributions and results.

## How do employers evaluate responses to performance-based questions?

Employers evaluate responses by looking for clear, relevant examples that demonstrate the candidate's skills, problem-solving abilities, and potential fit for the role. They often assess how well the candidate articulates their experiences and lessons learned.

## What are some common themes in performance-based interview questions?

Common themes include teamwork, conflict resolution, leadership, adaptability, and achieving goals. These themes help employers understand how candidates function in various workplace scenarios.
