2. Spirit Box: Ask questions to the spirit. It will respond with audible answers, confirming its presence.
3. Ghost Writing Book: Place the book in the room where the ghost is active. If it writes in the book, it's a sign of a specific ghost type.
4. Video Camera: Set up cameras to spot ghost orbs. This evidence is crucial for certain ghost types.

5. UV Light: Use this to search for fingerprints on doors and objects touched by the ghost.
6. Thermometer: Keep it handy to detect freezing temperatures, which are indicative of specific ghost types.

Sanity Management

Players must also manage their sanity levels to avoid being hunted by the ghost. Here are some strategies:

- Stay in Groups: Traveling in pairs or groups can help maintain sanity levels.
- Use Sanity Pills: Collect and use sanity pills when low on sanity.
- Avoid Dark Areas: Try to keep lights on in your vicinity, as darkness decreases sanity faster.
