Question 1: What is the primary purpose of a project charter?

- A) To define project scope
- B) To authorize the project
- C) To develop the project schedule
- D) To identify project stakeholders

Answer: B) To authorize the project

Explanation: The project charter is a crucial document that officially authorizes the existence of a project. It provides the project manager with the authority to allocate resources and enables the team to commence work. While it may contain elements related

to project scope and stakeholders, its primary role is authorization.

Question 2: In which process group is the project management plan developed?

- A) Initiating
- B) Planning
- C) Executing
- D) Monitoring and Controlling

Answer: B) Planning

Explanation: The project management plan is developed during the Planning process group. This plan acts as a roadmap for how the project will be executed, monitored, and controlled. It encompasses all aspects of project management, including scope, schedule, cost, quality, resources, communication, risk, procurement, and stakeholder engagement.

Question 3: What is a key benefit of conducting a stakeholder analysis?

- A) To determine project risks
- B) To create a communication plan
- C) To identify stakeholder interests and influence
- D) To develop project milestones

Answer: C) To identify stakeholder interests and influence

Explanation: Conducting a stakeholder analysis is essential for understanding the needs and expectations of stakeholders involved in the project. By identifying their interests, influence, and potential impact on the project, the project manager can tailor communication strategies and engagement efforts accordingly, ensuring stakeholder satisfaction and project success.

Strategies for Answering PMP Exam Questions

When tackling PMP exam prep questions, consider the following strategies:

- **Read Questions Carefully:** Pay close attention to the wording of each question. Look for keywords that indicate what is being asked.
