## Setting Up Your Fighter

When creating your character, consider the following aspects:

- Attributes: Focus on which attributes you want to enhance. Strength, speed, and stamina are key components of any fighter's success.
- Special Abilities: Choose abilities that complement your fighting style. For example, if you prefer a defensive approach, abilities that enhance dodging and counterattacks would be beneficial.

- Strength Training: Increases your power and damage output. Essential for fighters who focus on knockout punches.
- Speed Training: Enhances your movement and dodging capabilities. Vital for avoiding damage and setting up counterattacks.
- Stamina Training: Improves your endurance, allowing you to last longer in fights and execute more moves.

### Creating a Training Schedule

To optimize your fighter's training, consider creating a schedule that includes:

1. Daily Training Goals: Set specific goals for each training session.
2. Rest Days: Schedule rest to prevent burnout and maintain energy levels.
3. Balanced Approach: Ensure you're training all attributes, not just focusing on one.

## Combat Strategies

Once you've trained your fighter, it's time to step into the ring. Combat in Punch Club 2 is tactical and requires a good understanding of your opponent's behavior.

## Analyzing Opponents

Before each fight, take note of your opponent's strengths and weaknesses. Use the following strategies:

- Study Their Moves: Pay attention to their attack patterns. This can help you dodge effectively and plan counterattacks.
- Adjust Your Strategy: Based on your opponent's attributes, switch up your fighting style as necessary. If they are strong, a defensive approach may be best.

Make the most out of your special abilities during combat:

1. Timing: Use abilities at the right moment to maximize their impact.
2. Combination Attacks: Find ways to combine abilities with regular punches for devastating effects.
3. Defensive Moves: Don't forget to use defensive abilities to mitigate damage from stronger opponents.
