Step By Step How To Crochet A Blanket

Step by step how to crochet a blanket can be a rewarding and creative endeavor, perfect for both beginners and seasoned crocheters. Crocheting a blanket allows you to express your style, keep warm, and create a thoughtful gift for loved ones. In this article, we will guide you through the entire process, from gathering materials to completing your beautiful blanket.

Materials Needed

Before you begin crocheting, you'll need to gather the necessary materials. Here's a detailed list of what you'll need:

Yarn

- Choose a yarn suitable for blankets. Acrylic yarns are popular for their durability and ease of care. You can also opt for cotton or wool, depending on your preference.
- Recommended weight: Bulky or worsted weight yarn is ideal as it works up quickly and provides warmth.

Crochet Hook

- Select a crochet hook that corresponds with the yarn weight. A 5.5mm (I/9) hook is commonly used for worsted weight yarn, while a 6.5mm (K/10.5) hook is suitable for bulky yarn.

Scissors

- A pair of sharp scissors to cut the yarn when you finish your blanket.

Tapestry Needle

- A large-eyed needle to weave in the ends of your yarn once you finish crocheting.

Measuring Tape

- To measure your work and ensure your blanket is the desired size.

Choosing a Pattern

Deciding on a crochet pattern is an essential step in creating your blanket. You can choose from various styles, such as:

- Granny Square: A classic and versatile pattern, perfect for using up scrap yarn.
- Solid Stitch: A simple yet elegant pattern that creates a cozy and warm blanket.
- Ripple or Waves: A fun pattern that adds texture and visual interest.
- Shell Stitch: A beautiful stitch that creates a delicate, lacy look.

If you're a beginner, consider starting with a simple solid stitch or granny square pattern. Once you feel more comfortable, you can experiment with more complex designs.

Basic Crochet Stitches

Familiarize yourself with some basic crochet stitches before you start. Here are a few essential stitches used in many blanket patterns:

Chain Stitch (ch)

- This is the foundation of most crochet projects. To make a chain stitch, create a slip knot on your hook and pull the yarn through the loop to create a chain.

Single Crochet (sc)

- Insert the hook into the designated stitch, yarn over, pull through, yarn over again, and pull through both loops on the hook.

Double Crochet (dc)

- Yarn over, insert the hook into the stitch, yarn over again and pull through, yarn over and pull through the first two loops, yarn over and pull through the last two loops.

Step-by-Step Instructions for Crocheting a Blanket

Now that you have your materials and know some basic stitches, let's dive into the step-by-step process of crocheting your blanket.

Step 1: Decide on the Size

- Determine the size of your blanket. Common sizes include:
- Baby Blanket: 30" x 36"
- Lap Blanket: 36" x 48"
- Throw Blanket: 50" x 60"
- Twin Blanket: 66" x 90"
- Full/Queen Blanket: 90" x 90"
- King Blanket: 108" x 90"

Step 2: Create a Foundation Chain

- To begin, make a slip knot and chain the desired number of stitches for the width of your blanket. For example, if you want a width of 36 inches and are using worsted weight yarn with a 5.5mm hook, you might chain about 100 stitches.

Step 3: Start the First Row

1. After chaining the required stitches, turn your work.
2. For single crochet: Insert the hook into the second chain from the hook, yarn over, pull through, yarn over, and pull through both loops on the hook. Repeat this across the row.
3. For double crochet: Yarn over, insert the hook into the fourth chain from the hook (this accounts for the height of the double crochet), yarn over, pull through, yarn over and pull through the first two loops, yarn over and pull through the last two loops. Repeat across the row.

Step 4: Continue Crocheting Rows

- Turn your work at the end of each row and chain 1 (for single crochet) or chain 3 (for double crochet) to start the next row.

- Continue crocheting until your blanket reaches the desired length. This could take time, so be patient and enjoy the process!

Step 5: Adding Texture or Color

- If you wish to add texture, consider alternating between different stitches (such as single and double crochet) or using a pattern.
- For color changes, simply finish the last stitch of the current color, drop it, and pull the new color through the last step of the stitch. Continue crocheting with the new color.

Step 6: Finishing Your Blanket

1. Once you reach your desired length, finish off your last stitch.
2. Cut the yarn, leaving a tail of about 6 inches.
3. Pull the tail through the last loop to secure it.
4. Weave in the ends using a tapestry needle.

Care and Maintenance

To ensure your blanket stays beautiful, follow these care instructions:

- Washing: Most acrylic yarns can be machine washed on a gentle cycle, while cotton and wool may require hand washing. Always check the yarn label for specific care instructions.
- Drying: Lay your blanket flat to dry to avoid stretching. If you must use a dryer, opt for a low heat setting.
- Storage: Store your blanket in a cool, dry place. Avoid direct sunlight to prevent fading.

Conclusion

Crocheting a blanket is a fulfilling and enjoyable project that allows you to express your creativity. By following these step-by-step instructions, you can create a beautiful and cozy blanket that will be treasured for years to come. Don't forget to experiment with colors, patterns, and textures to make your blanket uniquely yours. Happy crocheting!

Frequently Asked Questions

What materials do I need to start crocheting a blanket?

To crochet a blanket, you'll need yarn (preferably medium weight), a crochet hook (size I/9 or J/10 is common), scissors, and a yarn needle for weaving in ends.

What is the easiest stitch for beginners to use when crocheting a blanket?

The single crochet stitch is the easiest for beginners. It creates a tight fabric and is simple to master.

How do I determine the size of my blanket?

To determine the size of your blanket, decide if you want a lap blanket, throw, or full-size blanket. Common dimensions are 40x50 inches for a lap blanket and 60x80 inches for a full-size throw.

How do I start my first row of a crochet blanket?

Begin by making a slip knot and chaining the desired number of stitches. For a single crochet blanket, chain the width of your blanket, then turn your work to start the first row.

What is the best way to change colors in my crochet blanket?

To change colors, complete the last yarn over of your final stitch in the old color, then pull through with the new color. Continue crocheting with the new color, making sure to weave in the ends later.

How do I finish and secure my crochet blanket?

To finish your blanket, cut the yarn leaving a few inches, pull it through the last loop, and tighten. Use a yarn needle to weave in any loose ends along the edges for a neat finish.
