BarCharts, Inc.® **Quick Study ACADEMIC** WORLD'S #1 ACADEMIC OUTLINE **NURSING TEAS Study Guide**

## READING

TEST OF ESSENTIAL ACADEMIC SKILLS

### Paragraph & Passage Comprehension

- **Passage types**
  - **Expository:** Explains, describes, or informs.
  - **Technical:** Gives directions or instructions about a specific subject (e.g., instructions on how to put something together).
  - **Narrative:** Tells a story.
  - **Persuasive:** Persuades or convinces.
- **Important terms**
  - **Topic:** The general subject of the paragraph or passage.
  - **Main idea:** The purpose of the paragraph or passage.
  - **Supporting details:** Used to explain or illustrate the main idea.
  - **Themes:** Central ideas or concepts that are explored by the paragraph or passage.
  - **Context:** The set of circumstances or facts that surround a particular event or situation.
- **Author purpose (four types):**
  - **Persuade:** Convince the reader to agree with the author (e.g., sales letters, campaign speeches).
  - **Inform:** Give information or enlighten (e.g., instructions, directions, teaching materials).
  - **Entertain:** Amuse readers (e.g., novel, short story, poem, play).
  - **Express:** Share thoughts or feelings (e.g., journal entries).
- **Text structure**
  - **Cause and effect:** The cause is why something happened, the effect is what actually happened.  
EX: I won't allow my kids to use social media unless they give me their passwords. They think I'm just being nosy, but they don't realize that I'm trying to protect them from online predators.  
In this example, the effect is that the kids can't use social media unless they give the parent their password. The cause is online predators.
  - **Chronological:** The events in the passage happen in the order they occur.  
EX: I met my husband while we were still in high school. After we both finished college, we got married. Then we both got jobs and worked for two years before starting a family.  
Here is the chronological order of the events: (1) met husband, (2) went to college, (3) got jobs, and (4) started a family.
  - **Compare and contrast:** To compare means that you are looking for similarities between two or more things; to contrast means that you are looking for differences.  
EX: The Notebook and Romeo and Juliet are both love stories. In both stories, two young people fall in love, and their parents don't approve of their unions. In Romeo and Juliet, the two lovers die young by their own hands so that they can be together. In The Notebook, the couple grows old together, then wills themselves to die at the same time so that they, too, can be together forever.  
When comparing and contrasting the two stories, this passage points out the similarities (young people fall in love, parents don't approve, they die together) and differences (one couple dies young, while the other grows old, one couple dies by their own hands, while the other wills themselves to die together).
  - **Order of importance:** Ideas are expressed in order of priority (from most important to least important or vice versa).  
EX: The first thing I need to do today is finish my article that's due tomorrow morning. Then I need to schedule an interview, after which I need to work on my large project that's due next week.  
The projects are listed in order of priority from most important to least. Finishing the article is the top priority, followed by scheduling the interview, then working on the project that is due next week.
  - **Problem and solution:** The paragraph or passage presents a problem, and then offers a solution to the problem.  
EX: Several people in my office have recently come down with the flu. Many of these illnesses could be prevented if people would get flu shots before they got the flu and would stay home when they are sick.  
The problem is that people in the office are coming down with the flu. The solutions are for people to get flu shots and to stay home when they are sick.
  - **Sequence:** The paragraph or passage describes the steps in a process in the order that they occur.  
EX: When making peanut butter fudge, first mix the sugar and milk, and then boil the mixture to a soft ball stage. Next, add the peanut butter, butter, and vanilla. Then stir and pour the hot fudge into a buttered pan.  
The sequence is mix, boil, add, stir, and pour.
  - **Descriptive:** The paragraph or passage provides the reader with a mental picture of what is occurring and what the writer is seeing, hearing, or feeling.  
EX: When you walk through my front door, you will see my dining room on the left and my office on the right. As you walk further into the entryway, you will see the kitchen, which opens up to the living room. From the living room, there is a door to the master bedroom on the right and a hallway on the left that leads to a bathroom and the other bedrooms.  
This paragraph describes the layout of the author's house.

### Informational Source Comprehension

- **Sets of directions:** This portion of the test will require you to follow a series of instructions to arrive at a correct response.  
EX: Start with the number 5.  
+ Add 7. + Subtract 3. + Multiply by 4. + Divide by 6.  
Answer: 6, because:  
 $5 + 7 = 12$   
 $12 - 3 = 9$   
 $9 \times 4 = 36$   
 $36 \div 6 = 6$
- **Reading labels:** Many products come with labels. This portion of the test will require you to read labels and pick out pertinent information.  
According to the label, in which case should a patient inform the doctor?  
A. The patient has kidney disease.  
B. The patient has asthma.  
C. The patient is allergic to penicillin.  
D. The patient has cataracts.  
Answer: B, because asthma is a breathing problem.
- **Printed communications:** In this portion of the test, you will be asked to interpret pertinent information from printed communications, such as ads, letters, and memos.  
**Memo**  
Flu shots will be available for free this week to all employees who choose to be vaccinated. Those who work on the first and third floors will get their shots on Tuesday. Those who work on the second and fourth floors will get their shots on Wednesday. The Tuesday shots will be given in the multipurpose room from 1:00 to 3:00 p.m. The Wednesday shots will be given in the library from 9:00 to 11:00 a.m.  
If you work on the second floor, where and when should you report for your flu shot?  
Answer: Wednesday, in the library, between 9:00 and 11:00 a.m.
- **Charts and graphs:** Information is often presented in the form of a chart or graph, so it is important to be able to know how to read them. In this portion of the test, you will be asked to interpret pertinent information from charts and graphs.  
EX: In which quarter was the second highest number of sales?  
Answer: 2nd quarter

## MATH

### Order of Operations

- Calculations inside parentheses should be performed first.
- Next, do multiplication and division, moving from left to right.
- Then, do addition and subtraction, moving from left to right.  
 $5 \times (6 + 4 - 3) - 13$   
 $= 5 \times (24 - 3) - 13$   
 $= 5 \times 21 - 13 = 13$

### Addition

- The sum of two positive numbers is a positive number.  
 $3 + 4 = 7$
- The sum of two negative numbers is a negative number.  
 $-3 + (-4) = -7$
- The sum of one positive number and one negative number can be either a positive or a negative number, depending on which number is greater.  
 $-3 + 4 = 1$       $-4 + 3 = -1$
- When adding large numbers, line them up so the right sides are aligned vertically.  
$$\begin{array}{r} 344 \\ + 292 \\ \hline 636 \end{array}$$

### Subtraction

- Subtraction is taking away one number from another.  
 $8 - 4 = 4$       $3 - 8 = 3 + (-8) = -5$
- When subtracting large numbers, line them up so the right sides are aligned vertically.  
$$\begin{array}{r} 344 \\ - 292 \\ \hline 52 \end{array}$$

### Multiplication

- The product of two positive numbers is a positive number.  
 $3 \times 8 = 24$
- The product of two negative numbers is a positive number.  
 $(-3) \times (-8) = 24$
- The product of a positive number and a negative number is a negative number.  
 $8 \times (-3) = -24$
- When multiplying large numbers, line them up so that the right sides are aligned vertically.  
$$\begin{array}{r} 159 \\ \times 24 \\ \hline 636 \\ + 3180 \\ \hline 3816 \end{array}$$

### Division

- The quotient of two positive numbers is a positive number.  
 $9 \div 3 = 3$
- The quotient of two negative numbers is a positive number.  
 $(-9) \div (-3) = 3$
- The quotient of a positive number and a negative number is a negative number.  
 $(-9) \div 3 = -3$
- Long division is used to divide larger numbers.  
Answer: 17      $425 \div 25 = 17$   
$$\begin{array}{r} 17 \\ 25 \overline{) 425} \\ \underline{50} \phantom{0} \\ 75 \phantom{0} \\ \underline{75} \phantom{0} \\ 0 \end{array}$$

### Fractions

#### Finding the Least Common Denominator (LCD)

- The LCD is the smallest number into which two or more denominators will

TEAS test printable study guide is an invaluable resource for nursing students preparing for the Test of Essential Academic Skills (TEAS). This standardized exam is crucial for entrance into nursing programs across the United States, assessing a student's preparedness in vital academic areas. A comprehensive study guide can help streamline your study process, providing structure, essential information, and practice questions to improve your chances of success.

## What is the TEAS Test?

The TEAS test, developed by ATI (Assessment Technologies Institute), evaluates students' knowledge and skills in four core areas: Reading, Mathematics, Science, and English and

Language Usage. Each of these sections is designed to measure academic preparedness for nursing school and consists of multiple-choice questions.

## **Sections of the TEAS Test**

### **1. Reading (Total Questions: 40)**

- Key concepts and themes
- Understanding of passages
- Inference and interpretation of information

### **2. Mathematics (Total Questions: 40)**

- Basic arithmetic
- Algebra and measurement
- Data interpretation and statistics

### **3. Science (Total Questions: 30)**

- Human anatomy and physiology
- Life sciences
- Scientific reasoning and the scientific method

### **4. English and Language Usage (Total Questions: 30)**

- Grammar and mechanics
- Vocabulary and word meanings
- Sentence structure and coherence

The total number of questions is 140, and students are typically given a time limit of 209 minutes to complete the test.

## **Why Use a Printable Study Guide?**

A TEAS test printable study guide offers several advantages, making your study process more effective:

- Convenience: You can print the guide and take it with you wherever you go, allowing for on-the-go study sessions.
- Organization: A well-structured guide provides a clear roadmap of what to study, helping you stay focused on essential topics.
- Practice Questions: Many guides include practice questions that mimic the TEAS format, giving you a feel for the actual test.
- Visual Learning: Printable materials often include charts, diagrams, and tables that can help visualize complex information.

## **Creating an Effective Study Guide**

When creating your TEAS test printable study guide, consider the following steps:

# **1. Gather Resources**

Collect textbooks, online resources, and previous exams to ensure you have comprehensive material. Some recommended resources include:

- ATI TEAS Study Manual
- Online practice tests
- Educational websites (Khan Academy, Quizlet)

# **2. Outline the Content**

Organize your study guide by outlining the key concepts in each section of the TEAS test. This outline serves as a framework for what you will include in your study guide.

# **3. Break Down Each Section**

For each section of the TEAS test, break down the content into manageable topics. For example:

- Reading
  - Types of texts (fiction, non-fiction)
  - Strategies for understanding main ideas
  - How to identify tone and purpose
- Mathematics
  - Basic operations (addition, subtraction, multiplication, division)
  - Understanding fractions and decimals
  - Solving equations and inequalities
- Science
  - Key systems in human anatomy (circulatory, respiratory, etc.)
  - Basic principles of biology and chemistry
  - Scientific method steps and application
- English and Language Usage
  - Parts of speech (nouns, verbs, adjectives)
  - Common grammatical errors
  - Tips for improving sentence structure

# **4. Include Practice Questions and Answers**

Incorporate practice questions at the end of each section. Use a mix of question types that reflect the TEAS test format. After each question, provide an answer key with explanations for why each answer is correct or incorrect. This will help reinforce your understanding.

## 5. Create Study Schedules

Include a study schedule in your guide to help you allocate time effectively. Consider the following tips:

- Set a timeline for each section based on your strengths and weaknesses.
- Allocate more time to areas where you feel less confident.
- Include regular breaks to avoid burnout.

## Study Tips for the TEAS Test

To maximize your study efforts, consider these practical tips:

- **Set Clear Goals:** Determine a target score for the TEAS test and tailor your study plan to achieve that goal.
- **Practice Regularly:** Make practice exams a regular part of your study routine to build test-taking endurance and familiarity.
- **Join Study Groups:** Collaborate with peers to discuss concepts, quiz each other, and share resources.
- **Utilize Flashcards:** Create flashcards for vocabulary terms, formulas, and important concepts for quick review.
- **Take Care of Yourself:** Ensure you are getting enough rest, eating well, and managing stress to keep your mind sharp.

## Where to Find Printable Study Guides

Several resources are available for obtaining a TEAS test printable study guide:

- **ATI Official Resources:** The official ATI website offers study manuals and practice tests.
- **Libraries:** Many public libraries carry TEAS prep books that you can photocopy or borrow.
- **Online Platforms:** Websites like Teachers Pay Teachers or Etsy often have printable study guides created by educators.
- **Educational Blogs:** Various education-focused blogs offer free downloadable study guides and materials.

## Final Thoughts

Preparing for the TEAS test can be daunting, but a TEAS test printable study guide can be your best ally in navigating the process. By organizing your study materials, practicing regularly, and maintaining a balanced study routine, you can boost your confidence and improve your chances of achieving a high score on the test. Remember, the more effort you put into your preparation, the more equipped you will be to face the challenges of nursing school and beyond.

# Frequently Asked Questions

## What is the TEAS test and why is it important?

The TEAS (Test of Essential Academic Skills) test is a standardized exam used to assess a student's preparedness for entering nursing programs. It evaluates skills in reading, math, science, and English language usage, helping schools determine if a student is ready for the academic challenges of nursing education.

## Where can I find a printable TEAS test study guide?

Printable TEAS test study guides can often be found on educational websites, nursing school websites, or platforms that specialize in study resources like Etsy or Teachers Pay Teachers. Additionally, many test prep books include downloadable study guides.

## What subjects are covered in a TEAS test study guide?

A typical TEAS test study guide covers four main subjects: Reading, Mathematics, Science, and English Language Usage. Each section includes review materials, practice questions, and strategies for success.

## How can a printable study guide help with TEAS test preparation?

A printable study guide provides a structured format for reviewing key concepts, allows for easy annotation, and can be used offline. It helps organize study sessions and track progress in each subject area.

## Are there any free resources for TEAS test study guides?

Yes, many websites offer free TEAS test study guides and practice questions. Educational institutions may provide free resources, and online platforms like Khan Academy and Quizlet can also be useful.

## What format do TEAS test printable study guides usually come in?

Printable TEAS test study guides typically come in PDF format, allowing easy printing. They may include charts, flashcards, and practice questions, making them versatile study tools.

## How should I use a TEAS test study guide effectively?

To use a TEAS test study guide effectively, first assess your strengths and weaknesses in each subject area. Create a study schedule, focus on one subject at a time, and practice with sample questions. Regular review and self-testing can enhance retention.

## Can I create my own TEAS test study guide?

Yes, you can create your own TEAS test study guide by gathering resources, notes, and practice questions from various study materials. Organizing this information in a structured format can help tailor your study plan to your individual needs.

## What are some tips for studying for the TEAS test using a study guide?

Some effective tips include breaking study sessions into manageable chunks, using active recall techniques, utilizing practice tests, and incorporating visual aids. Regularly revisiting tough topics and taking breaks can also improve retention.

## How often should I review my TEAS test study guide before the exam?

It's advisable to review your TEAS test study guide regularly, ideally daily or several times a week leading up to the exam. Spaced repetition helps reinforce learning, and last-minute reviews can help solidify your knowledge.
