- **The Constitution:** The foundational document that outlines the framework of government.

- **Congress:** The legislative body responsible for making laws.

- **The Presidency:** The executive branch that enforces laws and manages the government.

- **The Judiciary:** The system of courts that interprets laws and checks governmental powers.

- **Political Socialization:** The process by which individuals acquire their political beliefs and values.

By analyzing these factors, authors Coyne and Hall highlight how individual actions contribute to the larger political system.

3. Policy-Making Process

The policy-making process is a central theme in the book. The authors break down this process into several stages:

1. **Agenda Setting:** Identifying issues that require government attention.

2. **Formulation:** Developing potential solutions to problems.

3. **Adoption:** The process of enacting policies through legislative or executive action.
