## Understanding Adjectives and Adverbs

# What are Adjectives?

Adjectives are words that describe or modify nouns and pronouns. They provide information about qualities, quantities, colors, sizes, and more. For example, in the phrase "the tall building," the adjective "tall" describes the noun "building." Understanding how adjectives work is crucial for expanding vocabulary and enhancing writing skills.

Examples of Adjectives:
- Color: red, blue, green
- Size: large, small, tiny
- Quality: beautiful, ugly, pleasant
- Quantity: few, many, several

# What are Adverbs?

Adverbs, on the other hand, modify verbs, adjectives, or other adverbs. They often provide information about how, when, where, or to what extent something occurs. For instance, in the sentence "She runs quickly," the adverb "quickly" modifies the verb "runs," indicating the manner of the action.

Examples of Adverbs:
- Manner: quickly, slowly, carefully
- Time: now, later, soon
- Place: here, there, everywhere
- Degree: very, quite, almost
