

Us History Chapter 4

- iv. The Colonists responded by calling for a meeting to plan a united response known as the First Continental Congress.
- iii. The First Continental Congress
 - i. On September 5, 1774, 55 delegates met in Philadelphia.
 - ii. All colonies except Georgia sent delegates.
 - iii. They renewed the boycott against British goods and called all people of the English colonies to arms themselves and form militias.
 - iv. They made a direct appeal to the King pointing out their grievances and asking for understanding.
- ii. Fighting at Lexington and Concord
 - i. King George III called the colonists rebels, the colonists called themselves patriots.
 - ii. A militia was formed in Massachusetts and a large stock pile of weapons was kept in Concord.
 - iii. 700 British soldiers were sent to secretly take the weapons from the armory.
 - iv. Boston patriots learned of the plan and went out to warn the countryside.
 - 1. Paul Revere made his famous ride during this time.
 - v. The British were met by 70 armed militia known as minutemen at Lexington.
 - vi. The British offered the colonists the ability to surrender so no one would be hurt... the colonists began to obey.
 - vii. Out of nowhere a shot rang out and the full battle began.
 - viii. The British continued to Concord and they took the armory and burned it down.
 - ix. As they returned, 4,000 minutemen had along the road and shot at the soldiers.
 - x. The Battle of Lexington and Concord was the first battle of the war between the British and the colonists.
 - xi. The war between the British and the colonists that lasted 8 years would become known as the Revolutionary War.
- 3) Ideas Behind the Revolution
 - a. The American Revolution took place on two levels:
 - i. Struggle for power between the American colonists and Great Britain.
 - 1. This was decided on the battlefield.
 - ii. The other level was the battle of ideas.
 - iii. The colonists were rethinking the proper role of citizens, government and the relationship between the two.
 - iv. Colonists now demanded that the government respect the citizens' rights.
 - b. Common Sense
 - i. Common Sense was a 47-page pamphlet written by Thomas Paine.
 - ii. Paine's writing style suggested that anyone could understand the conflict between Great Britain and the colonists.
 - iii. This convinced many to support a complete break with Great Britain.
 - c. Turning Point: The Declaration of Independence
 - i. The Second Continental Congress met in Philadelphia less than a month after the battle of Lexington and Concord.
 - ii. Most members from the First Continental Congress returned for this meeting.
 - iii. New members to the meeting were John Hancock and Thomas Jefferson.
 - iv. The Olive Branch Petition was a document that expressed the colonists' continued loyalty to the monarch and their desire for peace.
 - v. This also begged the King to halt the fighting.
 - vi. King George III rejected the Olive Branch Petition.
 - d. Drafting a Declaration
 - i. Congress decided to cut their ties to Great Britain.
 - ii. A statement of the reasons for separating was called the Declaration of Independence.
 - iii. Jefferson drafted the statement.

US History Chapter 4 delves into a pivotal period in American history, focusing on the years leading up to and including the American Revolution. This chapter examines the political, social, and economic factors that contributed to the growing tensions between the American colonies and Great Britain. Understanding this chapter is crucial for comprehending how the foundations of American independence were laid and how the struggle for liberty was shaped by a variety of influences.

Colonial Relations with Britain

The Navigation Acts

One of the earliest forms of colonial control imposed by Britain were the Navigation Acts. These laws were designed to regulate colonial trade and enabled England to collect taxes from the colonies. Key points include:

1. Trade Restrictions: Colonies could only trade with England and its colonies.
2. Impact on Economy: While these acts bolstered the British economy, they often hindered colonial economic growth, leading to resentment.
3. Smuggling: Many colonists resorted to smuggling goods to avoid the restrictions imposed by these acts, showcasing a growing defiance against British authority.

The French and Indian War

The French and Indian War (1754-1763) marked a significant turning point in colonial relations with Britain. This conflict, fought between the British and the French, along with their respective Native American allies, had several consequences:

- Debt Crisis: Britain emerged victorious but heavily in debt, leading them to impose taxes on the colonies to recoup financial losses.
- Territorial Gains: The Treaty of Paris (1763) expanded British territory in North America, but it also created tensions with Native Americans, who resisted encroachment on their lands.
- Military Presence: Increased British military presence in the colonies as a means to enforce new policies and protect the expanded territories heightened colonial grievances.

The Road to Revolution

Taxation Without Representation

The phrase "no taxation without representation" became a rallying cry for the colonists. Several key tax laws angered the colonists:

1. Stamp Act (1765): This act required colonists to purchase special stamped paper for legal documents, newspapers, and other publications, leading to widespread protests.
2. Townshend Acts (1767): These imposed duties on imported goods like tea, glass, and paper, further inflaming colonial resistance.
3. Tea Act (1773): Aimed at helping the struggling British East India Company, this act granted the company a monopoly on tea sales in the colonies, leading to the famous Boston Tea Party.

Colonial Resistance

Colonial resistance took various forms, from intellectual arguments to organized protests. Significant movements included:

- Sons of Liberty: A secret organization formed to oppose British policies and taxes, famously led by figures like Samuel Adams.
- Committees of Correspondence: These groups were established to coordinate resistance and disseminate information among the colonies.
- Boston Tea Party (1773): A direct act of defiance where colonists, disguised as Native Americans, dumped tea into Boston Harbor in protest of the Tea Act.

The First Continental Congress

In response to increasing British aggression, the First Continental Congress convened in 1774, bringing together delegates from twelve colonies (excluding Georgia). Key outcomes included:

- Unified Response: A collective decision to boycott British goods and to form militias in preparation for potential conflict.
- Declaration of Rights and Grievances: A document outlining colonial objections to British policies, asserting the colonies' rights to self-governance.
- Continued Communication: Establishment of a network for ongoing correspondence among the colonies to ensure unified action against British rule.

The Battles of Lexington and Concord

The first armed conflicts of the American Revolutionary War occurred at Lexington and Concord in April 1775. Important points include:

1. "The Shot Heard 'Round the World": This phrase symbolizes the start of armed conflict between Britain and the colonies.
2. Militia Preparedness: Colonial militias, known as Minutemen, were prepared to respond quickly to British advances.
3. Tactical Victory for Colonists: Although the British forces were initially successful, they faced fierce resistance from colonial militias during their retreat to Boston.

The Declaration of Independence

Drafting the Document

The Continental Congress convened again in 1776, leading to the drafting of the Declaration of Independence, primarily authored by Thomas Jefferson. Key aspects include:

- Philosophical Foundations: The document asserts the principles of individual rights and the idea that governments derive their power from the consent of the governed.
- Grievances Against the King: A list of complaints against King George III, emphasizing the colonies' justification for independence.
- Adoption: On July 4, 1776, the Declaration was adopted, marking the formal assertion of independence from Britain.

Reactions to the Declaration

The Declaration of Independence elicited various responses:

- Patriots: Supporters of independence celebrated and rallied support for the war effort.
- Loyalists: Many colonists remained loyal to Britain, fearing the consequences of rebellion and advocating for reconciliation.
- International Response: The Declaration garnered sympathy from foreign powers, particularly France, which would later provide crucial support to the American cause.

The Impact of the Revolution

The American Revolution brought about profound changes in society and governance. Key impacts include:

- Establishment of a New Government: The Articles of Confederation were adopted, creating a loose federation of states.
- Social Changes: The Revolution spurred dialogues on liberty and equality, leading to gradual changes in attitudes toward slavery and women's roles.
- Global Influence: The success of the American Revolution inspired other movements for independence and democratic governance around the world.

Conclusion

US History Chapter 4 captures a critical juncture in the development of the United States. The growing discontent with British rule, the push for independence, and the eventual outbreak of the Revolutionary War set the stage for the creation of a new nation. The events and ideas discussed in this chapter not only shaped the future of the United States but also influenced global movements for freedom and self-determination. Understanding this chapter is essential for grasping the complexities of American history and the enduring legacy of the fight for independence.

Frequently Asked Questions

What were the main causes of the American Revolution discussed in Chapter 4?

Chapter 4 highlights key causes such as taxation without representation, the influence of Enlightenment ideas, and colonial resistance to British authority.

How did the relationship between Britain and the American colonies change in the years leading up to the Revolution?

The relationship deteriorated due to increased British taxation and regulation, leading to growing colonial dissatisfaction and calls for independence.

What role did propaganda play in the American colonies according to Chapter 4?

Propaganda, such as pamphlets and newspapers, played a crucial role in galvanizing public opinion against British policies and uniting the colonies.

How did key figures like Samuel Adams contribute to the revolutionary movement?

Samuel Adams was instrumental in organizing resistance, promoting the idea of independence, and forming groups like the Sons of Liberty to oppose British rule.

What events are described in Chapter 4 that escalated tensions between colonists and British soldiers?

Events such as the Boston Massacre and the Boston Tea Party significantly escalated tensions, exemplifying colonial anger towards British military presence and taxation.

What was the significance of the First Continental Congress as discussed in Chapter 4?

The First Continental Congress was significant as it marked a unified colonial response to British actions, laying the groundwork for collective action and eventual independence.
